

My All About Me Flip Book Instructions!

To construct this book correctly, you will print pages 2-9
(single pages only! DO NOT print front/back)

You can connect pages at the top of each pages creating a
book that lifts up for each new page. I use staples for mine,
but you can also bind them or use string or ribbon.

You can either connect all of the pages before use, or you can
wait until all pages are filled out to connect them. I prefer to
connect them all as soon as I print them to stay organized.
